VSP Diabetic Eyecare Plus Program™

As the only national not-for-profit vision care company, VSP is committed to providing members with the best care for their eyes. If you have diabetic eye disease, glaucoma, or age-related macular degeneration (AMD), you can receive your routine eyecare and follow-up medical eyecare services from your VSP doctor. You can also receive preventive retinal screenings if you have diabetes, but don’t show signs of diabetic eye disease.

Protect your eyes with a WellVision Exam®.

A WellVision Exam is the most thorough eye exam available and allows your VSP doctor to identify the early onset of medical conditions so they can begin providing early monitoring and treatment that can help prevent vision problems. Your VSP doctor can also consult and coordinate with your primary care physician to ensure you’re getting the best care.

It’s easy to use.

You can visit your VSP doctor as often as needed, and you only pay a copay for services. Plus, there’s no referral necessary.¹

- **Find the VSP doctor who’s right for you.** To find a VSP doctor, visit vsp.com or call 800.877.7195.
- **Already have a VSP doctor?** At your appointment, tell them you have VSP. There’s no ID card necessary.

That’s it! We’ll handle the rest—there are no claim forms to complete when you see a VSP doctor.

Visit vsp.com or call 800.877.7195 for more eye health information.
